

Enlightening Hope Project

Mission and Vision

The purpose of this project is to bring awareness regarding the ugliness of addiction and untreated mental illness; provide resources for all who are struggling with this disease; to raise awareness of the effects of addiction and provide education to the community; but most importantly to remember all those we have lost to addiction – alcohol and substance abuse (prescribed or recreational).

We need to create an awareness and send a reminder that their silent death does not indicate that we've arrived at a solid resolution, but we that we are no where near it; and we must continue to push forward and fight for those who no longer can. We lost my son this year after over a 15 year battle with addiction and unstable mental illness; and though it shattered our hearts into a million pieces, his life and his painful death have a purpose.

As such, we respectfully ask if you would like to share your lost loved one's photo, the addiction that took their life, a summary of who he/she was so that we can share with others in our community and via social media of this tragedy. Each picture will be created voluntarily free of cost to you and will be displayed, along with the summary in events on in social media, news coverage, publications, and our website.

If interested please request a form and instructions at enlightenhopeproject@gmail.com
